

IN-PERSON FACILITATED WORKSHOP

DEVELOPING AND IMPLEMENTING AN

OUTWARD MINDSET

OVERVIEW

Arbinger’s work reveals two distinct mindsets from which people and organizations operate—a self-focused inward mindset and an others-inclusive outward mindset. Arbinger has a thirty five-year record of successfully helping organizational change efforts by equipping people to shift to an outward mindset. Studies show that organizations that focus on this kind of mindset change are four times more likely to succeed in organizational-change efforts than companies that focus only on changing behavior.

Arbinger helps organizations and their people to turn outward by (1) shifting their mindsets, (2) equipping them to helpfully adjust their behaviors in accordance with their changed mindsets, and (3) helping leaders to turn organizational systems and processes outward in order to invite and reward sustained, systemic change.

This process begins with Arbinger’s foundational workshop, *Developing and Implementing an Outward Mindset* (DIOM). In this course, participants learn how to implement

a performance platform that enables them to operate with an outward mindset. They learn and apply four sets of tools: **self-awareness tools** that help them see when they might be operating with an inward mindset; **mindset-change tools** that they can apply to turn their mindsets outward; **accountability tools** that help them to operate in their roles with an outward mindset; and **collaboration tools** that teams can deploy together in order to operate with an outward mindset.

PROGRAM FORMAT

This session is an interactive, one-day course. Key concepts are taught through discussions led by an Arbinger-certified facilitator. The course is punctuated by videos, individual and group exercises, one-on-one sharing, and application of the tools to on-the-job situations facing the participants.

In addition, participants have access to an eight-week sustainment program that they can implement on their own or with their teams. The sustainment guide for this program leads participants through the implementation of concepts learned

from eight videos that are designed to be applied at a cadence of one-per-week.
